SLR SERIES ONE-SIZE-FITS-ALL IN-COUNTER INTERCHANGEABLE BAFFLE CUP DISPENSERS

DISPENSE-RITE SLR-2 cup dispensers are the only dispensers you will need to accommodate a variety of paper, plastic and foam cups ranging from 8 oz. to 44 oz. SLR-2 cup dispensers utilize an interchangeable silicone baffle gasket system. These dispensers are designed for cups and containers with rim diameters ranging from 3” – 4½”.

DISPENSE-RITE’s interchangeable baffle system combined with a calibrated compression spring ensures one at a time dispensing in horizontal, angled or vertical mounting positions. Innovative design allows the baffle to be replaced without removing from the counter. Quality ABS plastic construction with a no-jam design provides years of dispensing reliability.

The integrated mounting collar fully supports the dispenser in horizontal, angled or vertical mounting positions; no additional support is necessary. Optional silver satin ring bezels are available. All models are NSF listed.

* Above models include multiple silicone baffles and are for use with the cup diameter range listed. NOTE: Ounce capacities are provided for reference only. Always verify cup rim diameter prior to ordering.

* Above models ship with 2 different compression springs “F” & “P”. See chart on page 13 for details.
**SLR-2, SLR-2S AND SLR-2L** **ONE-SIZE-FITS-ALL IN-COUNTER INTERCHANGEABLE BAFFLE CUP DISPENSERS**

With three under counter lengths to choose from the SLR-2 cup dispenser can be ordered to suit your particular installation requirements.
