

DISPENSE-RITE® SLR SERIES BAFFLE SELECTION INSTRUCTIONS

- 1 Rotate the cover ring counterclockwise and remove from the dispenser. Remove the cardboard insert and discard. Behind the cardboard insert you will find a complete set of baffles that cover a full range of cup rim diameters ranging from 3" - 4-1/2" (8 oz to 44oz).

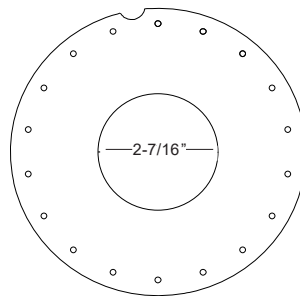

- 2 Determine which is the correct baffle for your particular cup size. Refer to the diagram shown on the right for correct baffle sizing. The appropriate baffle should be selected based on a measurement of the cup's outside rim diameter.

- 3 Install the appropriate baffle (see step 2) onto the ring by lining up the posts in the ring with the holes in the baffle. Be sure the baffle is completely flush with the underside of the ring and that it is inserted underneath the three retention tabs.

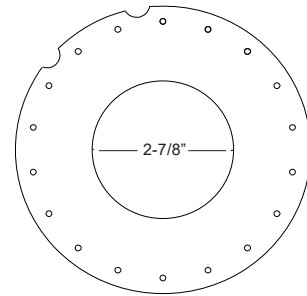

SLR-2 Series Rubber Baffles (select one)

1 Notch for Small Baffle

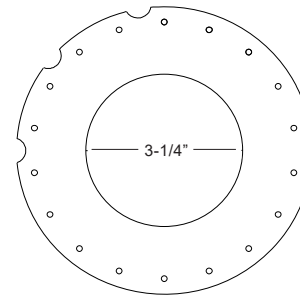

Small Baffle (1 notch)
Cup Rim Diameters: 3" - 3 1/4"
Approx. Cup Sizes: 8 - 14 oz.
