**STL Series**

**Precision Adjustment Dispensing Flexibility**

**Dispense-Rite** STL Series cup dispensers feature quality ABS plastic construction combined with a simple and fast tool-free adjustment mechanism to adjust for cup sizes ranging from 8 oz. to 44 oz.

A calibrated compression spring ensures one-at-a-time dispensing in horizontal, angled, or vertical mounting positions. The integrated mounting collar fully supports the dispenser in horizontal, angled, or vertical mounting positions; no additional support is necessary. All models are NSF listed.

**Dispense-Rite's** precision three clip adjustment mechanism allows the dispenser to be adjusted without using hand tools or removing from the counter. This dispenser offers simple and fast adjustment for a full range of cup sizes.

The **STL-2** is a One-Size-Fits-All model that offers maximum dispensing flexibility. This unit is designed to accommodate a variety of 8 oz. to 44 oz. paper, plastic, or foam cups with rim diameters ranging in size from $3\frac{3}{8}$” to $4\frac{1}{2}$”. This model comes in three under counter lengths: 22”, 17”, and 28”. The STL-2 models require a 5\frac{1}{4}” hole cut-out.
